

# V-PLOW

**Workhorse with sturdy** construction for easier snow clearance. Hydraulic adjustment for use as a wedge plow, diagonal plow or V-shape plow. The wings are spring action. There is a solenoid valve as standard so you can adjust the wings from the cab. Only 3rd hydraulic function required. Available in sizes 2.2 m to 4 m.

#### BENEFITS:

- Vertical and horizontal oscillation
- Pressure relief valve as standard
- Spring action edges
- Maximum safety for driver
